We consider that any development to the north and east of the country park will have a detrimental effect on the wildlife corridors and destroy the views from the east and north of the park.

The park now has Qe2 fields in trust status and recently the whole of the park has been designated a local wildlife site. We do not wish to comment on any other aspects of the plan (IN1 aside) as we are only interested in the protection of the park.

Attached in support of submission:

Appendix (a) a list of flora and fauna recorded by Chris Hughes, a lecturer in ecology, on the land between the country park and Melton Spinney Road.

Appendix (b) a bat survey carried out by Leicestershire and Rutland Bat group

Appendix (c) a botanical report on Melton Country Park to support the application for Local Wildlife Site status for the whole of the park, compiled by Paul Greene-Master of Horticulture (RHS) - lecturer at Brooksby Melton College

Appendix (d) pps 74 and 76 of the biodiversity report carried out by AMEC for the Core Strategy, which we believe is still relevant, with the paragraphs relating to the country park highlighted.

We have done a survey of all of the houses since 2011 which have been built or are in the process of being built or have full planning permission, but have not yet started building. Also the number of properties on land where developers have applied for various types of planning permission (this doesn't include any land to the north and east of the (Melton) country park). The total is in excess of 3,300. Which at the desired rate of housebuilding in Melton Mowbray represents over 20 years supply of available land. We consider that the location of housebuilding land is not vital to the financing of parts of the proposed distributor road, as all housebuilders in the town should be contributing.

We realise that the northern section of the eastern distributor road is necessary for the future development of the town and can only hope that it is constructed in such a way as to minimise its impact on the park.
